

The 2015 Telluride School on Theoretical Chemistry (TSTC)

WHAT: Top Flight Faculty, Inspiring Location, and Superb Fellow Students to interact with.

WHEN: July 12th-18th, 2015

WHERE: Telluride, CO

WHO: Recent or soon-to-be theory Ph.D.s who desire to acquire knowledge outside their graduate and postdoctoral experiences. Recent or soon-to-be experimental Ph.D.s in chemistry or related fields who use theory in their research. Faculty at primarily undergraduate institutions (PUI) who want to incorporate theory into their classes. 25-40 students; most supported by TSTC grant monies.

FACULTY:

Prof. Joan-Emma Shea (UC Santa Barbara)

Prof. Phillip Geissler (UC Berkeley)

Prof. Tom Miller (Caltech)

Prof. Troy Van Voorhis (MIT)
