

FRONTIERS IN BIOMAGNETIC PARTICLES

06/23/2015 - 06/26/2015

TELLURIDE, CO USA

This symposium brings a diverse group of disciplines together to discuss the frontiers in the characterization and control of magnetic carriers. The program includes invited talks, contributed talks, and posters.

TOPICS INCLUDE:

- Biomedical imaging, sensing, and actuation
- Magnetic separation and cellular manipulation
- Drug delivery, magnetic hyperthermia, and other therapeutic applications
- Magnetic particle synthesis, modification, and characterization

Organizers: Drs. O. Thompson Mefford (Clemson U.),
Jeffery Anker (Clemson U.), and Jennifer Andrew (U. Florida)
